

QUALITY ASSURER SHIFT WORK / FULL TIME

COMPETITIVE SALARY + BONUS + PENSION

An opportunity has arisen to join our Technical Team, ensuring high standards are maintained in product quality and factory processes.

The work will include:

- Audits on all aspects of the factory and product
- Helping to ensure standards are met at all times
- Advising and working with operations to achieve best quality, efficiency and cost
- Follow through actions to ensure they are completed
- Internal and external communications

Experience

Ideally you will have some experience or knowledge of food processing and Quality Assurance Procedures, but we will consider those who have the maturity and confidence for this key role to be put through our comprehensive training programme.

Skills

The successful candidate for this role will need to demonstrate the following:

- Good computer skills (Word & Excel)
- An eye for detail
- Good team player
- First class communication and organisational skills
- Confidence
- A drive to be the best

You should apply online by downloading an application at our website
